

THE TOP FIVE REASONS TO ATTEND AN ENERGY KINETICS SEMINAR

1. UPDATED COURSES

Great feedback allows us to continuously improve this one-day, fast paced, roll up your sleeves class! Topics include installation, applications, service and diagnostic techniques for System 2000 and the industry standard components used in this high efficiency equipment.

2. SERVICE MADE EASY

Attendance allows service technicians to become more knowledgeable of the latest System 2000 updates and more confident when installing and servicing our innovative system. This course also includes the latest illustrated tune-up guides, and technical manual complete with wiring diagrams, installation instructions and important settings and short cuts for tune ups and diagnostics.

3. CLASSROOM SETTING

Dynamic classroom interaction and open discussions make every session very rewarding. Technicians will easily maintain interest and attention no matter what the level of experience. And there will be drawings and prize giveaways for participation!

4. NORA CERTIFICATION

Our seminars qualify for 8 credits of NORA's Continuing education program. Bronze, Silver & Gold certification.

BPI CERTIFICATION

We will also certify Building Performance Institute contractors for 8 credits for continuing their education.

5. HOT LUNCH SPECIALS & CREDITS!!

A special "Hot Lunch" program will be offered for System 2000 units ordered at the seminars or by 5pm the next business day.

- 1 SYSTEM = BRONZE PLAN TERMS or \$95 credit
- 2 SYSTEMS = SILVER PLAN TERMS
- \$15,000 ORDER = GOLD PLAN TERMS
- \$25,000 ORDER = PLATINUM PLAN TERMS
- Dealers attending our seminars are also eligible for a \$95 credit (the price of admission) which may be applied when ordering a System 2000 up to 60 days after their seminar date and taken within plan terms. This credit **cannot** be combined with a "Hot Lunch" Special.

Everyone will receive a hot lunch, complimentary service board, tech manual, pen, course materials and some practical know how on design, service, and trouble shooting hydronic systems, controls and System 2000.

2010 Pro-Train™ Seminar Schedule

Pro-Train™ programs, from Energy Kinetics, are fact-filled full day workshops that will help make the attendee more productive in the field. All programs include continental breakfast and a hot lunch. Courses at the Lebanon, NJ facilities include a manufacturing plant tour. All courses include technical manuals, a complimentary diagnostic “service board”, free membership in the “Housecalls™” update club, and are NORA and BPI certified for 8 Continuing Education Unit Credits.

Service Course

Highly recommended for new personnel and refresher for experienced personnel. This covers System 2000 basics, standard applications, installation, annual tune-up and troubleshooting. This course reviews established principles that will help in servicing all heating systems - a comprehensive day of interactive learning. ***Registration will begin 7:30 am and the seminar will start promptly at 8:00 am.***
